CONTENTS OF VOLUME 45

NUMBER 1, SEPTEMBER, 1961

1 FISHER, J. F., and MALLETTE, M. F. The natural occurrence of ethionine in bacteria

15 EICHHORN, J., and HECHTER, O. Insulin-induced accumulation of *d*-xylose against an apparent concentration gradient in diaphragm muscle, *in vivo*

23 DENNISON, DAVID S. Tropic responses of *Phycomyces* sporangiophores to gravitational and centrifugal stimuli

39 CASTLE, EDWARD S. Phototropism, adaptation, and the light-growth response of *Phycomyces*

47 VARJÚ, D., EDGAR, LOIS, and DELBRÜCK, M. Interplay between the reactions to light and to gravity in *Phycomyces*

59 OLMSTEAD, EDWIN G. Extracellular and metabolic factors affecting the efflux and influx of erythrocyte water

69 HASTINGS, J. WOODLAND, ASTRACHAN, LAZARUS, and SWEENEY, BEATRICE M. A persistent daily rhythm in photosynthesis

77 MOORE, JOHN W., and ADELMAN, WILLIAM J., JR. Electronic measurement of the intracellular concentration and net flux of sodium in the squid axon

93 ADELMAN, WILLIAM J., JR., and MOORE, JOHN W. Action of external divalent ion reduction on sodium movement in the squid giant axon

105 ISHIKO, NOBUSADA, and LOEWENSTEIN, WERNER R. Effects of temperature on the generator and action potentials of a sense organ

125 MCCANN, FRANCES V., and BOETTIGER, EDWARD G. Studies on the flight mechanism of insects. I. The electrophysiology of fibrillar flight muscle

143 KEDEM, O., and KATCHALSKY, A. A physical interpretation of the phenomenological coefficients of membrane permeability

NUMBER 2, NOVEMBER, 1961

181 SAWYER, PHILIP N., LEVINE, JOEL, MAZLEN, ROGER, and VALMONT, IGNATIUS. Active ion transport across canine blood vessel walls

197 HSU, YU-CHIH, and HERRIOTT, ROGER M. Studies on transformations of *Haemophilus influenzae*. III. The genotypes and phenotypic patterns of three streptomycin-resistant mutants

205 GOODGAL, SOL H. Studies on transformations of *Haemophilus influenzae*. IV. Linked and unlinked transformations

229 PALMER, I. S., and MALLETTE, M. F. The effect of exogenous energy sources on the synthesis of β-galactosidase in resting-cell suspensions of *Escherichia coli*

243 REUBEN, J. P., WERMAN, R., and GRUNDFEST, H. The ionic mechanisms of hyperpolarizing responses in lobster muscle fibers

Alma College Library
Alma, Michigan

267 WATANABE, A., and GRUNDFEST, H. Impulse propagation at the septal and commissural junctions of crayfish lateral giant axons
309 CARLIN, H., and HECHTER, O. Effects of insulin on the permeability of D- and L-xylose and D- and L-arabinose in rat diaphragm muscle
317 TRAUTWEIN, WOLFGANG, and KASSEBAUM, DONALD G. On the mechanism of spontaneous impulse generation in the pacemaker of the heart
331 LENHOFF, HOWARD M. Activation of the feeding reflex in *Hydra littoralis*. I. Role played by reduced glutathione, and quantitative assay of the feeding reflex
345 PONDER, ERIC, and PONDER, RUTH V. The "apparent molecular weight" of myelin forms prepared from normal red cells and some of its variations
355 SCHULTZ, STANLEY G., and SOLOMON, A. K. Cation transport in *Escherichia coli*. I. Intracellular Na and K concentrations and net cation movement

NUMBER 3, JANUARY, 1962

371 WINEGRAD, SAUL, and SHANES, ABRAHAM M. Calcium flux and contractility in guinea pig atria
395 WEED, R., EBER, J., and ROTHSTEIN, A. Interaction of mercury with human erythrocytes
411 SAKAI, HIKOICHI. Studies on sulfhydryl groups during cell division of sea urchin egg. IV. Contractile properties of the thread model of KCl-soluble protein from the sea urchin egg
427 SAKI, HIKOICHI. Studies on sulfhydryl groups during cell division of sea urchin egg. V. Change in contractility of the thread model in relation to cell division
439 COX, RODY P., and MACLEOD, COLIN M. Alkaline phosphatase content and the effects of prednisolone on mammalian cells in culture
487 EVANS, DAVID R., and MELLON, DEFOREST, JR. Electrophysiological studies of a water receptor associated with the taste sensilla of the blowfly
501 PATTERSON, R., YOUNGNER, J. S., WEIGLE, W. O., and DIXON, F. J. The metabolism of serum proteins in the hen and chick and secretion of serum proteins by the ovary of the hen
515 FRAZIER, HOWARD S. The electrical potential profile of the isolated toad bladder
529 FRAZIER, HOWARD S., DEMPSEY, ELEANOR F., and LEAF, ALEXANDER. Movement of sodium across the mucosal surface of the isolated toad bladder and its modification by vasopressin
545 PONDER, ERIC. The coefficient of thermal conductivity of blood and of various tissues
553 VESELL, ELLIOT S., and BEARN, ALEXANDER G. Variations in the lactic dehydrogenase of vertebrate erythrocytes
567 ANDERSON, JOHN D. Potassium loss during galvanotaxis of slime mold
575 PEPEU, G., and GIARMAN, N. J. Serotonin in the developing mammal
587A ABSTRACTS OF PAPERS PRESENTED AT THE SIXTEENTH ANNUAL MEETING OF THE SOCIETY OF GENERAL PHYSIOLOGISTS

NUMBER 4, PART 1, MARCH, 1962

625 CURRAN, PETER F., and GILL, JOHN R., JR. The effect of calcium on sodium transport by frog skin
643 PEÑA, JOSÉ CARLOS, and MALVIN, RICHARD L. Transcellular diffusion of non-electrolytes across the renal tubular epithelium
651 EVANS, DAVID R., and MELLON, DEFOREST, JR. Stimulation of a primary taste receptor by salts
663 NAKA, KÉN-ICHI, and EGUCHI, EISUKE. Spike potentials recorded from the insect photoreceptor
681 HALPERN, BRUCE P., BERNARD, RUDY A., and KARE, MORLEY R. Amino acids as gustatory stimuli in the rat
703 RUPERT, CLAUD S. Photoenzymatic repair of ultraviolet damage in DNA. I. Kinetics of the reaction
725 RUPERT, CLAUD S. Photoenzymatic repair of ultraviolet damage in DNA. II. Formation of an enzyme-substrate complex
743 CASTLE, EDWARD S. Phototropic curvature in *Phycomyces*
757 WINTERS, ROBERT W., DELLUVA, ADELAIDE M., DEYRUP, INGRITH J., and DAVIES, ROBERT E. Accumulation of sulfate by mitochondria of rat kidney cortex
777 MILKMAN, ROGER. Temperature effects on day old *Drosophila* pupae
801 LINDEMANN, B., and SOLOMON, A. K. Permeability of luminal surface of intestinal mucosal cells
811 FORSTER, ROY P., and HONG, SUK KI. Tubular transport maxima of PAH and diodrast measured individually in the aglomerular kidney of *Lophius*, and simultaneously as competitors under conditions of equimolar loading
821 PRESTON, JAMES B., and KENNEDY, DONALD. Spontaneous activity in crustacean neurons

NUMBER 4, PART 2, MARCH, 1962

vii KRUEGER, ALBERT P., VAN SLYKE, DONALD D., and HERRIOTT, ROGER M. Preface
ix BRONK, DETLEV W. Foreword
1 HERRIOTT, ROGER M. A biographical sketch of John Howard Northrop
17 WARBURG, OTTO. Über Phosphorylierung im Licht
21 CASTAÑEDA-AGULLÓ, M., and DEL CASTILLO, LUZ M. On dielectric constant and enzymatic kinetics. IV. Dipolar ions. Ester hydrolysis by trypsin and alpha-chymotrypsin in glycine solutions
31 KUNITZ, M. Hydrolysis of adenosinetriphosphate by crystalline yeast pyrophosphatase. Effect of zinc and magnesium ions
47 BALLS, A. K. Early experiments in the quest of an active center in chymotrypsin
57 HERRIOTT, ROGER M. Pepsinogen and pepsin
77 MCDONALD, MARGARET R. Deoxyribonuclease from salmon testes. I. Purification and properties

93 DESREUX, V., HACHA, R., and FREDERICQ, E. Activation of deoxyribonucleases by divalent cations 949 959
103 MILSTONE, J. H. Thrombokinase of the blood as trypsin-like enzyme 979
115 WELSCH, MAURICE. Bacteriolytic enzymes from streptomycetes. A review 989
125 HUTTON, JOHN J., and GOEBEL, WALTHER F. The isolation of colicine V and a study of its immunological properties
143 SHOPE, RICHARD E. Are animal tumor viruses always virus-like? 1003
155 MURPHY, JAMES S., and PHILIPSON, LENNART. Purification of *B. megatherium* phage G and evidence for a muralytic enzyme as an integral part of the phage
169 LI, CHOH HAO. Preliminary investigations on the action of pepsin on human pituitary growth hormone
176 DIXON, JONATHAN S., and LI, CHOH HAO. The amino acid composition of human pituitary growth hormone 1019
179 DIEU, HECTOR A., and DESREUX, V. Hydrolysis of irradiated ovalbumin by pepsin 1031
185 NIALL, HUGH, and EDMAN, PEHR. The *N*-terminal amino acids of human plasma proteins 1049
195 BUTLER, J. A. V. Some researches on histones 1065
205 PRICE, W. H., MATANOWSKI, G., PREWER, A., and RECTOR, L. Seromucoid fraction patterns of individuals with pneumonia or leucemia 1077
223 TAYLOR, DERMOT B. The significance of the variable solvent and specific property solubility tests in protein chemistry 1099 1117
233 KRUEGER, ALBERT P. Air ions and physiological function
243 NORTHROP, JOHN, and RANSONE, MORRIS. Some seismic profiles near the Western end of the Puerto Rico trench 1145
253 A complete bibliography of the papers of John Howard Northrop 1163

NUMBER 5, MAY, 1962 1181

837 HOFFMAN, JOSEPH F. The active transport of sodium by ghosts of human red blood cells 1195
861 MACROBBIE, ENID A. C. Ionic relations of *Nitella translucens*
879 KRUEGER, ALBERT P., KOTAKA, SADAO, and ANDRIESE, PAUL C. Studies on the effects of gaseous ions on plant growth. I. The influence of positive and negative air ions on the growth of *Avena sativa* 1217
897 KRUEGER, ALBERT P., BECKETT, J. C., ANDRIESE, PAUL C., and KOTAKA, SADAO. Studies on the effects of gaseous ions on plant growth. II. The construction and operation of an air purification unit for use in studies on the biological effects of gaseous ions 1239 1247
905 HAYS, RICHARD M., and LEAF, ALEXANDER. Studies on the movement of water through the isolated toad bladder and its modification by vasopressin
921 LEAF, ALEXANDER, and HAYS, RICHARD M. Permeability of the isolated toad bladder to solutes and its modification by vasopressin
933 HAYS, RICHARD M., and LEAF, ALEXANDER. The state of water in the isolated toad bladder in the presence and absence of vasopressin

949 SHROPSHIRE, WALTER, JR. The lens effect and phototropism of *Phycomyces*
959 COHEN, DAN. Specific binding of rubidium in *Chlorella*
979 COHEN, DAN. The chemistry of sites binding rubidium in *Chlorella*
989 TOBIAS, JULIAN M., AGIN, DANIEL P., and PAWLOWSKI, RAYMOND. Phospholipid-cholesterol membrane model. Control of resistance by ions or current flow
1003 SELIGER, H. H., FASTIE, W. G., TAYLOR, W. R., and MCELROY, W. D. Bioluminescence of marine dinoflagellates. I. An underwater photometer for day and night measurements

NUMBER 6, JULY, 1962

1019 STUART, B., GERSCHMAN, R., and STANNARD, J. N. Effect of high oxygen tension on potassium retentivity and colony formation of bakers' yeast
1031 SORENSON, A. L., KIRSCHNER, LEONARD B., and BARKER, JENNIFER. Sodium fluxes in the erythrocytes of swine, ox, and dog
1049 HETENYI, G., JR., and ARBUS, G. S. The effect of insulin on the distribution of glucose between the blood plasma and the liver
1065 CUNNINGHAM, A. W. B. Qualitative behavior of spontaneous potentials from explants of 15 day chick embryo telencephalon *in vitro*
1077 TAUC, L. Site of origin and propagation of spike in the giant neuron of *Aplysia*
1099 TAUC, L. Identification of active membrane areas in the giant neuron of *Aplysia*
1117 CHARACHE, PATRICIA, MACLEOD, COLIN M., and WHITE, PETER. Effects of silicate polymers on erythrocytes in presence and absence of complement
1145 ARDEN, G. B., and TANSLEY, KATHARINE. The electroretinogram of a diurnal gecko
1163 FUORTES, M. G. F., and MANTEGAZZINI, FRANCOISE. Interpretation of the repetitive firing of nerve cells
1181 TAKEUCHI, AKIRA, and TAKEUCHI, NORIKO. Electrical changes in pre- and postsynaptic axons of the giant synapse of *Loligo*
1195 JULIAN, FRED J., MOORE, JOHN W., and GOLDMAN, DAVID E. Membrane potentials of the lobster giant axon obtained by use of the sucrose-gap technique
1217 JULIAN, FRED J., MOORE, JOHN W., and GOLDMAN, DAVID E. Current-voltage relations in the lobster giant axon membrane under voltage clamp conditions
1239 MAYBERRY, J. M., and MALLETTE, M. F. Inhibition of the tyrosinase oxidation of one substrate by another

1247 INDEX TO VOLUME 45
